Independent Study Petition

399 Independent Studies are available, by petition, to juniors and seniors who have a B average or better. As the title implies, such work involves the independent investigation of topics not normally covered by the curriculum of the school. Independent studies must involve careful faculty supervision and typically culminate in a written report.

In rare cases, exceptions are made to the grade-point average and the class-level requirements. Recent grades, the nature of the work and the special circumstances are important considerations in these cases.

After you obtain a signature from your faculty sponsor, turn this petition in to the Student Advisor. If your independent study is approved by the school dean, this office will register you for the appropriate course. If there is a problem, the office will immediately contact you.
