

Wildcat Serve Proposal Workshop

- What areas of sustainable development would you focus on?
- How is the theme relevant globally?
- Conduct thorough research on the global need.

SUSTAINABLE DEVELOPMENT GOALS

Write about the service organization you intend to work with and why?

Describe your project design/the type of service and give us detailed itinerary of your daily tasks.

Outline what you hope to learn or gain through your service project?

- **Specify skills** you want to learn or improve
Ex. Leadership
- **How** will you do it? *Use action verbs*
Ex. Teach a class
- How is it **measured**?
Ex. Classes for 20 students for 10 days. (quantitative)

*With all these elements, you can now make a proper learning objective

Risk Assessment for Chosen Location

3 types of Risks:

- Overall
- Medical
- Security

2 types of risks:

- Alert
- Warning

All NU-Q students are already registered with Global Rescue. Please visit <https://grid.globalrescue.com/member/login.xhtml>, and click “Forgot Password”. Use your Northwestern email to reset password for access.

Tips:

- If the risk is **HIGH** security or has a Travel Warning, it is unlikely to be approved. Alert is ok.
- If there are **HIGH** medical risks, ok but how you would mitigate them?
- Special consideration can be given if you are returning to your home country, but no promises.

Why should you be awarded this grant?

If you are doing a joint proposal, each person must complete an application with identical information EXCEPT for the Personal Statement.

*It is possible that some people of the proposal are approved but not all.

Last tips

- Pitch a service/project no one has done before. You'll get our attention more if it's NOT teaching English to kids ;
- Prepare a presentation for the selection committee

**PITCH YOUR PROJECT, NOT YOUR
LOCATION!**

Goodluck!
