QUICK START GUIDE
PANASONIC HPX-171

FORMAT THE CARD
Turn ON the camera
Press MENU → Card Functions → SD Card Format → YES → Completed → Press again MENU
to exit SETTING UP YOUR CAMERA

1. Reset Settings
   Press MENU → OTHER FUNCTIONS → MENU INIT → YES

2. Movie Format
   Press MENU → RECORDING SETUP → REC FORMAT → 1080i/25p

3. Set the Shutter Speed to 1/50 by setting Shutter Speed to OFF

4. Set the IRIS (Aperture)

5. Set the ND Filter

6. Set White Balance

7. Set the FOCUS

8. Set Audio
   You can use the internal microphone (INT) or an external microphone for your audio.
   Switch to MIC if the microphone is patched directly to the audio input of the camera
   and use LINE if a mixer or an external recorder's output is connected to the audio
   input of the camera. Turn on the +48V Phantom Power when using condenser
   microphone (ex: shotgun microphone)
