QUICK START GUIDE
PANASONIC HPX-250

FORMAT THE CARD
Turn ON the camera
Press MENU → Card Functions → SD Card Format → Execute → YES → Completed → Press again MENU
to exit SETTING UP YOUR CAMERA

1. Reset Settings
   Press MENU → OTHER FUNCTIONS → MENU INIT → Execute → YES

2. Movie Format
   Press MENU → SYSTEM SETUP → SYSTEM MODE → 1080 - 50i
   SYSTEM SETUP → REC FORMAT → AVC-I100 / 25PN

3. Set the Shutter Speed to 1/50
4. Set the IRIS (Aperture)
5. Set the ND Filter
6. Set White Balance
7. Set the FOCUS
8. Set Audio
   You can use the internal microphone (INT) or an external microphone for your audio. Switch to MIC if the microphone is patched directly to the audio input of the camera and use LINE if a mixer or an external recorder's output is connected to the audio input of the camera. Turn on the +48V Phantom Power when using condenser microphone (ex: shotgun microphone)
